

Formalities when arriving in Finland (Nordic citizen)

1. Make the registration of a foreigner at the Digital and Population Data Services Agency (DVV) & apply for a Finnish ID code

- Please apply for a Finnish personal identity code. Finnish personal identity code is used to identify Finnish citizens and people who reside in Finland permanently or for a longer period of time. The code consists of eleven characters, starting with your birthday (DDMMYY). Your departmental HR services will need this code also to Aalto personnel database. You will also need this ID code when handling any formalities in Finland.

If you intend to live in Finland for more than a year and would like to get a municipality of residence, read instructions on getting it on DVV page on Municipality of residence.
